

CONSERVATION WALKS

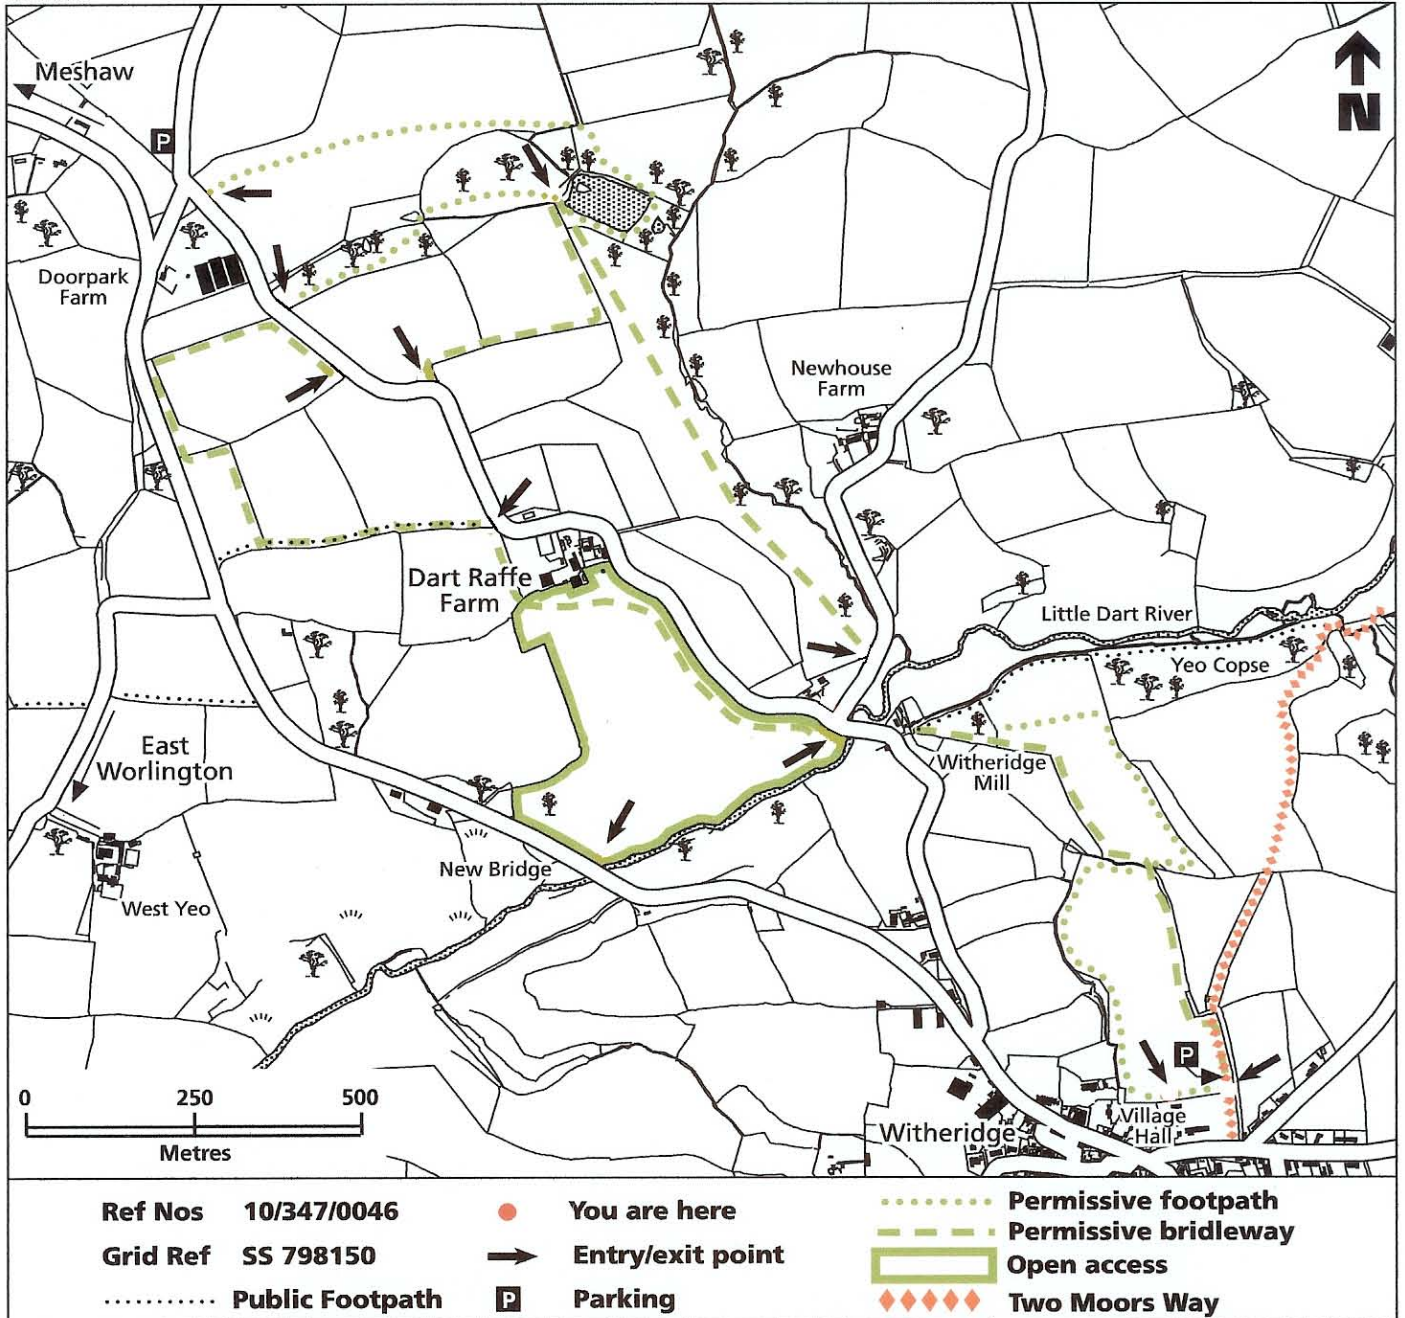

Permissive public access over Dart Raffe Farm includes a large area of open access next to the Little Dart River.

There is a circular walk at the north of the farm leading to a wildlife pool known to be visited by otters and wildfowl, this path also goes through an area of newly planted woodland and a large field which is reverting back to species-rich Culm grassland.

Another shorter circular walk starts behind the Witheridge Village Hall and is particularly good for dog walkers.

There is also a circular bridleway about 4km long which can also be used by walkers.

An area of hard standing on the edge of Witheridge has been constructed as a car park for cars and horse boxes.

This access has been provided under the Department for Environment, Food & Rural Affairs' farm conservation schemes, which help farmers and land managers protect and improve the countryside, its wildlife and history. It is permissive access and no new rights of way are being created. Existing rights of way are not affected. Please follow the Country Code and observe any other requirements shown above. Do not disturb wildlife, livestock or other visitors and in particular keep dogs under control. This is working farmland so please take care; people using this site do so at their own risk. Access ends in September 2012.
